

HIGH-QUALITY FABRICS

TECH VELOURS

HANDELS GmbH

OUR FOCUS:

QUALITY FROM TRADITION AND INNOVATION

TECHVELOURS Handels GmbH is your partner for the European market. Whether woven fabrics for cleaning products or paint rollers – we supply products that impress.

Since 1988, our weaving mill has stood for high-quality woven fabrics, continuous growth and innovative strength. With over 250 looms, state-of-the-art machines and an experienced team of around 2,700 employees, we produce an impressive 10 million meters of fabric per year on over 300,000 m² of operating space. Every step – from weaving to finishing to finishing – takes place under one roof to ensure the highest quality.

Our focus: woven fabrics for cleaning products and paint rollers that set standards worldwide.

OUR PRODUCTS:

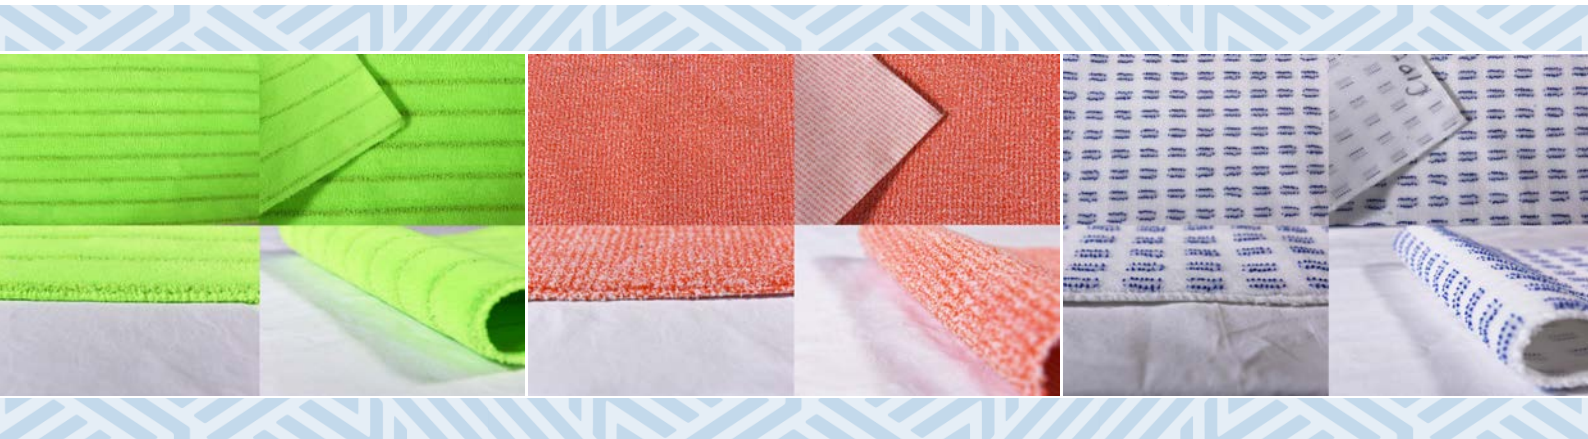

VERSATILE, INNOVATIVE AND EFFICIENT

Pile fabrics have become indispensable in the modern cleaning sector. With pile heights from 3 mm to 47 mm, a wide range of yarn combinations and variable weaves, numerous areas of application can be covered.

The plush-like structure of our fabrics maximises the effective cleaning surface. The optimal coordination of pile height and fibre blend specifically improves water absorption, dirt binding and dirt release - the cleaning effect.

TECHVELOURS supplies high-performance textiles for surface cleaning and care. Our range extends from abrasive, bristly fabrics to absorbent microfibres and bioactive fabrics with silver ions - ideal for private and industrial use.

PERFECT FIBRES:

CUSTOMISED FOR THE PAINTING INDUSTRY

Our products are used on high-quality paint rollers. Few fabrics are as versatile and predestined for the demanding tasks of painters and varnishers.

From the selection of technical fibres to precise production, we develop pile fabrics that are optimally adapted to the requirements of the paint application. Our experience results in paint rolls that ensure perfect paint release, even application and maximum durability.

Our speciality is individual solutions that require creativity, technical expertise and many years of experience - characteristics that distinguish us in the development and manufacture of pile fabrics for the painting industry.

WE LOOK FORWARD
TO HEARING FROM YOU.

OUR COMPETENT CONTACT PARTNERS WILL BE
HAPPY TO ASSIST YOU.
